DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-8, 10-11, 15, 22-34, 36-37 drawn to a liquid crystal with a alignment layer on the seal, classified in class 349, subclass 157.
- II. Claim 16, 18, 21, 35, drawn to a liquid crystal device with particular types of transistors and particular structures, classified in class 349, subclass 43.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention has separate utility such as in a device without the alignment layer formed on the seal. Conversely, the detailed transistor layout need not be employed, as the high concentration impurity regions can be omitted, and the light blocking layer can be omitted. See MPEP § 806.05(d)..

Because these inventions are distinct for the reasons given above and the search required for Group II in all of the transistor area is not required for Group I, and the search in the alignment area for Group 1 is not required for Group 2, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

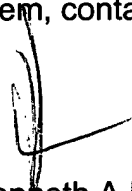

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
